Adobe Acrobat Studio for Education

Save hours each week for faculty and staff in document-heavy roles:

- **Enhance collaboration and streamline workflows with powerful PDF and e-signature tools**—Set up seamless, real-time PDF workflows that enable everyone to create, edit, and e-sign documents and contracts; simply review and approval of grant proposals, policy documents, and more; and work together more efficiently—anywhere on any device.

- **Create PDF Spaces to chat with your files and links and uncover insights**—Collect files and links to create knowledge hubs, and chat for faster insights with precise citations. Use a prebuilt AI Assistant like an analyst or instructor, or easily personalize your own and help guide its responses.

- **Make time for meaningful work with Acrobat AI Assistant**—Streamline research by extracting insights from documents and then clicking once to review citations for deeper context and exploration. Accelerate creation of classroom content like syllabi, review materials, and assessments.

- **Create compelling visual communications with Adobe Express Premium**—Quickly and easily turn insights and information into stunning presentations, infographics, reports, and more.

- **Ensure security, accessibility, and compliance**—Help safeguard against data breaches from phishing attacks disguised as PDFs. Stay in control of your data while ensuring document security and encryption, and improve compliance by auto-tagging for accessibility to make content usable for everyone.

- **Easily integrate with leading productivity apps**—Create, edit, and share PDFs in Microsoft Office, Google Workspace, and Dropbox to enhance efficiency, collaboration, and security across document workflows.

With Acrobat Studio for Education, your institution gets the latest features along with security and accessibility updates, plus centralized license management and simplified deployment. It's easy to use, follows responsible data security practices, and takes just minutes to deploy.
